

DEPARTMENT: Public Works	
	TOPIC: Bridge File # 84106 STIP funding and Replacement request
REPORT PREPARED BY: Mike Gallant REPORT PRESENTED BY: Mike Gallant	

PURPOSE OF REQUEST

To apply for STIP (Strategic Transportation Infrastructure Program) funding for Bridge File #84106.

BACKGROUND

Engineering for the replacement of this Bridge file culvert was completed in 2013. In 2017 it was rated at 22 out of 100. Bridge files with a rating under 33 will be considered for this funding.

In the seven years since its last inspection, it has gotten worse which should make it a strong candidate for funding support and replacement

REQUEST OF COUNCIL

Proposed Motion: That Council approves Administration to apply for STIP funding for Bridge File # 84106 and to update the 2013 engineering designs.

APPENDICES

Appendix A: Preliminary Design drawing and site location / map.
