**Subject:** Tree Clearing

C/O Suzanne Oel  
Division 4 Councillor  
Foothills County

Dear Foothills County Council

This is a request for permission to remove a small clump of poplar trees that are located immediately behind Condo Corp Villas #30,31,32,33 Sunrise Way Priddis Greens, photo attached.

These trees inhibit our adjacent Condo Corps Villas view #34,35,36,37 westerly mountain view and will have a negative effect on our real estate values. These trees were not present when our Villas were built in the 1980's.

Removal of these trees will be performed by a certified arborist, see attached quotation, at our expense.

Removal of these trees will be consistent with our communities Fire Smart objective of thinning trees in close proximity to structures as was recently done by Foothills County in the large island area at the end of Sunrise Way.

As per the quotation trees will be felled from the ground and carried out by foot to the wood chipper. Wood chips will be removed from the site.

We have requested and received approval from the Priddis Greens Community Association, see copy enclosed.

Your approval of this request will be very much appreciated.

Respectfully,

[REDACTED]  
Condo Corp 8711609
