Thank you [REDACTED] for putting together such a complete picture of the trees you wish to remove from the Foothills Property behind your property. We have also received all the Tree Policy forms and approvals from your quad and the line of sight neighbours. With all of this information, the PGCA Board approves the removal of these trees.

Suzanne, could you please send the PGCA Board your approval as well so we have it on file as we have not been involved with Foothills Property tree removal before and want to ensure we have everything in order.

Thank you so much.

Kim Trottier
