**ATTACHMENTS:**

Design Drawing – Prior Existing Condition with Design

**PURPOSE:**

To have Council review the implementation and installation of a new speed limit on 210<sup>th</sup> Street West, as a final step of the project.

**BACKGROUND/DISCUSSION:**

Foothills County completed significant upgrades to the intersection of 210 Avenue West and 256 Street West including the horizontal and vertical profile. Work began in the fall of 2024 and was completed this past summer.

Based on the vertical and horizontal design alignments in accordance with the applicable Alberta Transportation Geometric Design Guide, it has been recommended by the consultant that the speed limit be reduced to 40 km/hour along 210 Avenue West. This would be from the intersection east through the curve.

**FINANCIAL IMPLICATIONS:**

The cost will be \$250 per sign location including post, with 2 being required for a total cost of \$500.

**RECOMMENDATION:**

That Council provides 1<sup>st</sup> reading to bylaw XX/2025 for the implementation and installation of a new 40km/hour speed limit and signage on 210 Avenue W.

- Council may also choose to proceed with 2<sup>nd</sup> reading & 3<sup>rd</sup> readings.
