

COUNCIL ADMINISTRATIVE REPORT

Department: Public Works

TITLE: Bridge File 1331 Precast Girders

Author / Presenter: Mike Gallant

DATE: March 4, 2026

ATTACHMENTS:

Quotations

PURPOSE:

That council authorizes administration award the girder pre-casting for Bridge file 1331.

BACKGROUND:

Council approved the replacement of all 24 bridge girders in the 2026 budget due to excessive deterioration of existing concrete girders.

Administration has been working with our bridge services contractor to start the process of this project. The first step required is to have the new girders in the queue for casting to ensure availability.

DISCUSSION:

A request for quotation was sent out with three contractors responding:

ITEM	2026 Budget Approved	Amerize	Eagle Builders	Knelsen
1.) Bridge File 1331 pre-casting of 24 girders.	\$765,000			
2.) Pending: Contract the removal, disposal, delivery and installation of new girders.	(Budget for entire project)	\$389,600	\$342,110	\$356,460

Due to the location of Eagle Builders, the cost to transport the girders would be roughly 3 times higher than Knelsen.

We will send out another request for quotation for the removal and disposal of old girders. As well as the delivery and installation of the new girders.

RECOMMENDATION

That council approves the pre-casting of the 24 girders to Knelsen for the sum of \$356,460 GST not included.
